EXPERIENCE

Jun. 2025 – currently

Operations Specialist I IQVIA | Warsaw

(Medical Information and AE Intake Specialist for AstraZeneca and Sobi)

- Provide phone support to HCPs and consumers regarding AEs, POCs, medical inquiries, product support and other needs as required
- Receive, triage, review and process Lifecycle safety operational data
- Perform data entry for tracking and Lifecycle safety databases, coding relevant medical terminology, writing descriptive narratives, generating queries pertinent to the case, performing quality control, assisting with reconciliation, driving case closure, coordinating translations
- Receive and document incoming telephone calls or emails from investigative sites or other sources reporting safety data

Achievements:

- Provided multiple materials to the HCPs based on medical literature
- Responded to various safety and non-medical queries regarding medicines using information from SmPCs and PILs
- Collected quality complaints related to defective products, contributing to the prevention of future quality issues
- Communicated with the customers from US and CA regarding reported AEs to obtain information relevant to human safety

Apr. 2024 – May 2025

Clinical Trial Assistant ICON plc | Warsaw

- Administration, coordination, and management of delegated study activities
- Assisting with CRA/SMA tasks, in the on-site Monitoring Visit, with the document collection from sites and generating study reports
- Preparing, signing and delivering submission documents for Germany
- Coordinating document translation from the local language
- Planning and coordinating internal and external meetings
- Reviewing and managing the Trial Master File (TMF)

Achievements:

- Closed out a global paper study that had been ongoing for several years. Managed study documentation and coordinated communication between CRAs and CMAs
- Participated in the Monitoring Visit, during which study documentation was verified. Communicated with the PI and pharmacist. Verified medical records, consent forms and drug supplies. Supported CRAs with assigned tasks.
- Prepared and submitted documents in German to medical institutions and supported the SSUA team
- Organized and recorded study documentation using MS Office tools
- Provided mentoring and support to team members as a mentor
- Achieved highly-successful opinion from the manager and team
